

American Foregut Society Annual Meeting

September 25–29, 2024
Gaylord Rockies | Denver, Colorado

SUNDAY SEPTEMBER 29, 2024

Purpose and Content:

This course will provide attendees with practical information on foregut disease that can immediately be applied in their clinical practice. Topics will include incorporation of pCABs in everyday practice, newest modalities for diagnosis and risk stratification of Barrett's esophagus, novel medical treatments of eosinophilic esophagitis, and tips on how to build and improve a foregut practice. The topics presented at this half-day symposium through lecture, hands-on, and Q&A sessions will be guided by experts in the fields of gastroenterology and surgery. This course is designed for gastroenterologists, GI nurse practitioners/physician assistants, fellows and other health care providers with an interest in foregut diseases.

Learning Objectives:

1. Understand when and how to incorporate pCABs into your general gastroenterology practice.
2. Review how to incorporate wireless pH testing into a busy clinical practice and learn the basics of interpretation/application of the findings.
3. Review new FDA approved medications for eosinophilic esophagitis.
4. Evaluate new options for improved diagnosis and risk stratification of Barrett's esophagus.
5. Explore options, indications, and potential side effects of modern day antireflux procedures to better educate and set expectations in the pre- & post-operative assessment of your patient.
6. Learn the secrets to collaboration with surgeons: the gossip, the myths, and the truths about surgical practice and forging a successful partnership and referral network.

THE LATEST & GREATEST IN FOREGUT DISEASE MANAGEMENT FOR THE GENERAL GASTROENTEROLOGIST

7:00–7:45am | Breakfast and networking with the experts

**7:45am | Welcome from the
American Foregut Society Presidents**

**8:00–8:30am | The Growing Menu of New Diagnostic and
Risk Stratification Options for Barrett's Esophagus**

**8:30–9:00am | It's Time to Incorporate PCABs in
Your Practice: How and When**

9:00–9:15am | Q&A

**9:15–9:45am | Who, When, and Why:
Wireless pH testing in your practice**

**9:45–10:30am | How: Hands-on primer of wireless pH
devices and reading software**

**10:30–11:00am | Not Your Grandpa's Antireflux Surgery:
Modern Day Surgical Options and Evolving Concepts**

11:00–11:15am | Q&A

**11:15–11:45am | The new kids on the block for EoE
management: a case-based approach**

**11:45am–12:15pm | The 4 Cs for building a successful
foregut practice: Culture-Collaboration-Continued
Learning-Curiosity**

12:15–12:30pm | Q&A All Panels/Questions

Closing Remarks
