

We invite you to attend the following non-CME presentation at:
American Foregut Society 2026 Annual Meeting

PRESENTATION

Low-risk on histology. High-risk in reality:

Johnny Walker's journey with Barrett's esophagus

Johnny's **high-risk** TissueCypher score transformed a non-dysplastic Barrett's esophagus diagnosis into action. Hear Johnny and his care team discuss his decision to pursue endoscopic eradication therapy, and the low-grade dysplasia discovered just six months later.

Chesapeake
DEF

Friday,
September 25
12:00 - 1:30 PM ET
